

THE NEWS-BULLETIN

VOL. NO. 48.

MOKENA, ILLINOIS JULY 9, 1926.

\$1.50 PER YEAR IN ADVANCE

SENTENCE MAIL BANDIT AND ALLEGED SLAYER OF WALTER FISHER

Daniel F. Hensley, the Chicago mail bandit who stole registered mail pouches containing \$37,500 from the mail at Indiana Harbor on April 14th, has been sentenced to 25 years at Fort Leavenworth.

After he stole the money Hensley forced a taxi driver at the point of a gun to take him on. When the car got stalled at Joliet the bandit seized the mail pouches and headed eastward on the Lincoln highway. Shortly afterward he held up Dr. E. G. McMahon of Mokena at the Mokena road and took his car to make his get away.

Deputy Walter Fisher of Mokena was notified and gave chase and in a battle with the bandit on the concrete road near Orland, he was shot and killed. A week later Hensley was caught in Chicago by Government officials and practically all the loot was recovered.

It is said Hensley is a world war veteran and that he was gassed in France. He was identified by Dr. McMahon as the man who held him up and robbed him of his car.

St. Michael's Picnic At Orland Clears \$1800 for Parish

The second annual Independence Day picnic was given by St. Michael's Parish on July 5th.

Lockport, Lemont, Mokena, Midlothian, Joliet, Chicago responded gladly to invitations received. Detroit folks, not to be outdone, thought it no jest but a jolly reality to receive a bid to an Orland picnic and promptly responded with an auto load of representatives.

A Borden orchestra easily enticed the younger ones to Charleston while an unbidden band of mosquitoes persistently urged the older children to try the same on the green. However, the latter music was dismissed in the evening with the compliments of oil of citronella. Sundry bonfires, in the backwoods, also aided in entertaining the pests—their absence being most agreeably appreciated.

Races were won and lost. Girls tumbled and girls didn't. Miss Leona Homerding sprinting successfully to a two pound box of chocolates. Did Orville Schmaedeke win the married men's race? Good boy, Orville!

The Palos—Orland tug-of-war was mightily tugged. To the surprise of everyone, Palos sat down on the job.

The wonderful cooperation shown between the 350 dinner guests and the chicken dinner was astonishing. The energetic ladies of the parish barely managed to hold their own in the unequal contest but triumphantly closed their day with five pies left on the shelf.

The winners of the six big prizes were: Walter Konow of Lockport, Peter Michiel Orland, Mrs. Schoop, of Chicago, Jos. Bogan of Worth, A. Morgenthaler of Palos Park. The radio was won by Mary McKenna of Chicago. A beautiful hand embroidered table scarf by Viola Bremmer and a hand painted ladies scarf by Margaret Hostart.

Eighteen hundred dollars was netted—A perfect day, a glorious picnic, a social achievement, a financial success.

Mrs. Clara Strong and Mr. Jos. Riley were married at a nuptial Mass, Saturday, July 3rd.

Frankfort Twp. Gets Hard Roads

Frankfort township is getting 2 miles of stone road this summer, one road being built southeast of Frankfort on the Heisner road, the other road to be hard surfaced extends from the Mokena village limits at the Schenkel corner eastward past the Joe Kohl farm. Contractor Kreimeier has the Heisner road job. Henry Yunker has been engaged to haul the stone on the Mokena road. Part of the stone used is free penitentiary stone, and is the first stone of this kind the township has received for sometime. Commissioner Emil Cappel and Supervisor Wm. Lankenau were instrumental in getting this stone for the township.

"It Was Good Enough for Father And It's Good Enough for Me"

Whenever the question of a change in any existing institution comes to the attention of the public, someone is certain to quote the above remark. When the question of school improvement comes up, it is frequently paraphrased to this "the school was good enough for me so that it should be good enough for my children."

Let's forget for a minute the question of school improvement and carry that remark into other phases of our lives.

When I was a child, my parents had no automobile and no knowledge of the mechanics of one. Therefore, because they used no automobile at that time and carried all their groceries and bundles from the station, I also should have no automobile and should carry all my packages from the station. When I was a child radios were unknown. Life was good enough for my parents without a radio, therefore, I should have none now.

Until the last few years here in Palos, we have had no electricity. My Mother found it necessary to clean kerosene lamps each day, to use an oil stove for cooking, to pump and carry water. Therefore, because those methods were good enough for her, I also should follow them.

It is easily seen that the statement that what was good enough for our fathers is good enough for us is quickly reduced to the absurd. And the same absurdity applies to the statement that what was good enough for us should be good enough for our children.

Such statements are absurd because THE WORLD IS MOVING.

Referring again to my own childhood—for a few months, I attended the school of district 118. At that time it was as good a school as could be provided with the conveniences which the town at that time afforded. There was a pump by means of which we got water. No electricity was available in the region, so that running water was out of the question. We had an outdoor toilet, the only kind practical without running water.

When hot air furnaces became common, one was installed in the school. It was the best kind of heating plant possible at that time. To sum matters up, the school was supplied with about all the conveniences of the up-to-date home of that period.

But what is the situation now?

Electric power is now supplied to the Village of Palos Park. That means that with an electric pump the children might have running water in which to wash their hands. Running water means that they might have indoor toilets. They might have hot water or steam heat. When the best heating plant available was the hot air furnace, we could not complain, but there is no one who can truthfully deny that with hot air heating, when the wind is brisk, one side of a room is invariably cooler than the other. In the schoolroom where a child must remain stationary, the inequality of the heat is a very vital factor.

When we were children our schools were supplied with about the same conveniences as our homes. Is it too much to ask that our children have a school with the conveniences of the modern homes?

The best was none too good for us when we were children, and the best is none too good for our children.

I wish we might make that our slogan.

THE BEST IS NONE TOO GOOD FOR OUR CHILDREN.

Edith Bradley Wells.

Health Clinic at Orland

A health clinic will be held at Orland school on July 27th from 1 to 3:30 P.M. new time. All mothers are urged to bring their infants. Miss B. A. Cerveny, registered nurse of Cook County will be in charge.

Oak Lawn News

A telephone was installed in the business place of Mr. Geo. Paser. The local telephone exchange is improving the service right along. Thus far 70 new telephone lines have been installed. The local board can accommodate 300 subscribers.

George Burnette and Gladys Haase have taken over the business of John E. Bushfield known as the Bushfield's Restaurant on 95th St. Mr. and Mrs. Geo. Samuelson have rented their home on Lake Shore Drive and have moved into their new home on 93rd St.

Mrs. Mary Ann Elvidge who has been visiting with her son, E. E. Elvidge went to Peru, Ind., this week.

The Misses Reba and Dorothy Elvidge, Florence Blankley, motored to Urbana over the Fourth.

Mrs. Harry Phillips is able to be back on her feet after her recent illness.

Mr. and Mrs. Edward Weert and infant son of Chicago spent the week end with their parents, Mr. and Mrs. John Smilde.

Mrs. Francis French and infant son visited last week with her parents, Mr. and Mrs. Wm. Hoskins.

Mr. Wm. Hoskins was called to Hudson Lake, Ind., account of the serious illness of his father.

Miss Dorothy Davidson has been spending her vacation with her grandmother, Mrs. Hoskins.

There were no Fourth of July calamities here this year that we know of.

Mr. and Mrs. Rolland Freed together with Mr. and Mrs. Geo. Dutton and Mr. and Mrs. C. J. Freed of Beverly, motored to Stone Lake over the Fourth.

Miss Phyllis Jensen spent the Fourth at Cedar Lake, Ind., with Friends.

Mr. Delmar Skinner has returned from a trip to West Virginia where he is a representative of the G. H. Hammond Co.

THE PIRATE CREW

I want to be a Pirate bold
Out on the high sea,
Along with Bloody Bill McDonald
A pirate for to be.

There came along a merchant's ship,
Sailing with high speed.
We chased her down, and captured her,
It was a prize indeed.

We started in and plundered her
The men we did subdue.

When we joined hands, and sang
The song, of the good old Pirate Crew.

—By John Parrot.

Mr. Robert MacPhail was the week end guest of Mrs. Alvin Piper.

Mr. John T. Emery is building another house on 54th Ave, back of the stores.

Mrs. Timothy Wall spent the week end in Peru, Ill., with her parents.

Mrs. John Emery, daughter Berenice and Fred Bartley saw "Castles in the Air" at the Olympic last Monday evening in honor of the former's birthday.

The Misses Mary and Kathryn Alyward of Springfield were guests last Sunday of Geo. Farrell.

Miss Mary Brennan of Springfield and Mrs. Margaret Shober of Chicago spent Sunday at the Geo. F. Mann's home.

Mr. Geo. F. Mann and friends left Wednesday for Niagara Falls and other eastern points.

Mr. and Mrs. Frederick Auschwitz are visiting with their parents here.

A meeting of the Thursday circle of St. Gerald's church was held at the home of Mrs. McFarlan. Bunco was played and prizes awarded to Mrs. Gavin, Mrs. Ed. Weidner, Mrs. F. Brandt, Mrs. Rowan and Mrs. Theres. The next meeting aunt Mrs. Geo. Piper.

Miss Dolly Gleason of Chicago is spending the summer with her aunt, Mr. Geo. Piper.

Mr. Geo. Armstrong of Hinsdale was the guest over the week end of Wilbur Harnew.

Miss Kittie Boyle of Chicago was the guest of Judge and Mrs. Frank O'Brien Sunday and Monday. Miss Hazel Phillips is visiting with friends in Davenport, Iowa.

The Oak Lawn Welfare Clinic will be held in the public school on Tuesday July 13th from 1 to 3:30 P.M.

St. John Church Brotherhood To Banquet July 15

The Brotherhood of the St. John Evangelical church of Mokena will have a big banquet in the church parlors next Thursday night. Recently two teams, the Red and the Blue teams were in a drive for new members and the team getting the most members was to be the winner. As a result, the "Reds" will be the honored guests of the "Blues".

The following program will be given: March, Orchestra; Welcome by President Albert Cappel; Response, Rev. W. J. Cramer; Flag of Truce, Orchestra; Address, Rev. Gerhold; Vocal solo, Leon Tonn; Homeless, Orchestra; Spud & Slim in Gangway, Motion picture; Falling Leaves, Orchestra; Tuning In, Motion picture; Selection, Orchestra.

ST. JOHN EVANG. CHURCH

W. J. Cramer, Minister.

Sunday school 9:30 English service 10:30.

Orchestra rehearsal Monday 7:30.

Tuesday evening, Young Peoples meeting 7:30 o'clock. Thursday afternoon at 2 o'clock Ladies Aid meeting. Thursday evening Brotherhood banquet at 8 o'clock.

Church Council meets Friday evening at 8 o'clock.

Frankfort's Oldest Store Selling Out

The store of B. Balchowsky & Sons, the oldest business place in Frankfort, is selling out. This store has been in active business in Frankfort for fifty years and has built up a wonderful patronage thru being courteous and handling good goods. The entire stock is to be sold at once at real bargain prices. For further particulars read their half page adv. on the back page of this issue.

Rob Mokena Barbershop

Petty thieving has been on the gain in Mokena of late. Last Monday night some hoodlums broke a window in the Kraus barber shop and only got 36 cents out of the cash registered and \$1.05 in nickles out of another drawer for all their trouble. Nothing else was distrubed.

An attempt was made to pry up the gum machine in the Rock Island depot with a coal shovel, but proved unsuccessful.

Let Bridge Contract

Last Friday a contract was let to the Zimmerly Bridge Co., of Paris, Ill., for the construction of a concrete bridge on the highway between Mokena and Tinley Park at a cost of \$4400.00. The letting took place at the office of County Supt. of Highways Will H. Smith in Joliet. The cost of the bridge is to be paid by the county.

Passing the Buck

Several weeks ago the attention of several members of the Mokena village board was called to the fact that several big logs are lying along side the street on Neithammer Ave and are a dangerous nuisance. The street is narrow as it is and these logs lying alongside the street are liable to cause an accident. If some one unfamiliar with this street should drive over a little too far with an auto, a serious accident might occur. These logs are from a tree cut down on the Neithammer lot early in the spring and have been laying in the street ever since.

The city dads are passing the buck as to the removal of these logs. It is understood that Officer Frisch was given the logs but has not made a move to take them away. If any citizen of the village would leave such a dangerous obstruction in the street, the city dads would take action forthwith to have it removed but in this case, nothing is said or done until an accident occurs in which case the village could be sued for damages. No red lights are placed on these logs at night so that a stranger would not know of their location until they were hit. It is hoped the city dads will wake up and do something before they have a damage suit on their hands.

Tinley Play A Big Success

Tinley Park has an attraction all its own this week by way of a community play "The Trouble Chasers" which is playing under the auspices of the Triangle Club at the Saenger hall. The opening night was Thursday night. The play was witnessed by a full house on Friday night and the final performance will be played Saturday night.

Under the magic direction of Chic Perkins-King the members of the big cast snap into it like old timers. They are enjoying the work immensely and getting along harmoniously, which insures a tremendously good performance. There is a big surprise in store for all who see "The Trouble Chasers." You will be surprised at the ability displayed by your friends and neighbors as 100 Tinley Park persons are in the play. Tinley Park has shown that it has some mighty clever talent and that home folks can put on a real show. Over two hours of solid fun. Be sure and see the play which will chase all your troubles away as its name implies.

Levi Doty Carries On Good Work

Levi Doty, the sage of Frankfort in spite of his advancing years is taking a very keen interest in the public affairs of the day and especially is he taking a keen interest in all humane work as it concerns animals or children. Mr. Doty says he is ready at any time to take care of any humane society work with which he has been prominently identified with all his life.

His has been a long and useful life doing much public good and even now in the sunset of his life he is carrying this good work on.

FRANKFORT

The H. H. H. Sewing Club will meet at the school July 13th at 2 o'clock.

The congregation meeting of St. Peters church was held last Sunday at the close of services, to take up the matter of the new parsonage. The old committee was discharged and the deacons were elected to take care of the building of the new parsonage.

Mr. and Mrs. Mothamaker and daughter June of Chicago are visiting at the home of Mr. and Mrs. Chas. Pfaff, Jr.

Mr. and Mrs. Philip Deerr and sons Robert and Richard of Chicago and Mrs. Deerr's parents, Mr. and Mrs. Henry Hick of Tinley Park spent Sunday at the John Stauffenberg home in Green Garden.

Mrs. Peter Folkers is very ill at her home with a carbuncle on her

face. A nurse is in attendance.

Mrs. Katherine Brandau entertained the Ladies Aid Society of the First M. E. church Wednesday afternoon at the home of her brother Paul Heisner.

Rev. Otto Frey and Rev. B. F. Duncan attended a preachers conference of the Methodist church in Chicago last week.

Mrs. Frank Cheney entertained the Pinochle Club at her home last Thursday afternoon. Prizes were awarded to Mrs. Herbert Bruggemann and Mrs. Minnie Fink. Luncheon was served. The next meeting will be with Mrs. Christ Fink.

Mr. and Mrs. Christ Fink visited at the home of the former's nephew Wm. Sternberg in Roseland last Sunday.

The small son of Mr. and Mrs. Fred Bettenhausen was christened last Sunday, the name given being Glenn. The sponsors were Herman Shubert and Elmer Bettenhausen. Rev. Otto Frey officiated.

The Cheerful Workers of the 2nd M. E. church met at the home of Wm. Krapf last Tuesday. A lawn party was the evenings amusement.

Mrs. Elizabeth Mark was surprised at her home last Saturday evening in honor of her 78th birthday. The evening was spent informally and refreshments were later served. Those present were: Mr. and Mrs. Bartle Heisner; Mr. and Mrs. Geo. Kratzberg; Mr. and Mrs. Conrad Mark and family; Mr. and Mrs. Geo. Mark and family; Mrs. Adam Sangmeister and daughter; Mrs. Fred Baumgartner and Mrs. John Bettenhausen.

Mrs. Osley of Chicago, formerly of Frankfort died at her home in Chicago last Tuesday. Burial was in the German M. E. cemetery last Thursday in Tinley Park.

Miss Blanche Heilman of Manhattan is visiting at the home of her aunt, Mrs. Tillie Bettenhausen. Lester Holl of Monee who has been visiting at the home of Mr. and Mrs. Philip Stellwagon returned to his home Sunday.

The Industrial Club picnic on July 5th drew a very large crowd.

Chester Balchowsky of Chicago is visiting at the home of his cousin Edward Balchowsky.

Max Haass and sons, Max and Darrell are recovering nicely from their recent auto accident in which they were bruised and cut.

Mrs. Ed. Haake entertained her sister and father from Beecher last Sunday.

To Play Chi. Team

The Mokena baseball team will play the Fairfield team of Chicago this coming Sunday. The biggest game of the season will be on Sunday, July 18 when Mokena plays Orland. All fans are keenly waiting for this date. Mokena won a game in the Coal City Tournament Monday.

SAFEGUARD YOUR VALUABLES while away on that vacation this summer! For, remember, the sneak thief glories in a vacant house. He can work undisturbed—unmolested

COULD NOT PUT ON HER SHOES

Mrs. Daugherty Was so Weak

In a little town of the middle West, was a discouraged woman. For four months she had been in such poor health that she could not stoop to put on her own shoes. Unable to do her work, unable to go out of doors or enjoy a friendly chat with her neighbors, life seemed dark indeed to Mrs. Daugherty.

Then one day, a booklet was left at her front door. Idly she turned the pages. Soon she was reading with quickened interest. The little booklet was filled with letters from women in conditions similar to hers who had found better health by taking Lydia E. Pinkham's Vegetable Compound.

"I began taking the Vegetable Compound," Mrs. Daugherty writes, "and after I took the third bottle, I found relief. I am on my eleventh bottle and I don't have that trouble any more, and feel like a different woman. I recommend the Vegetable Compound to everyone I see who has trouble like mine, and you can use these facts as a testimonial. I am willing to answer any letters from women asking about the Vegetable Compound."—Mrs. Ed. DAUGHERTY, 1308 Orchard Ave., Muscatine, Iowa.

Are you on the Sunlit Road to Better Health?

Easy Way

The late Gen. Nelson A. Miles disliked antimilitarists of the rabid kind. "There are antimilitarists who attack Pershing and Foch and other great soldiers as if they were fiends," he once said at a banquet. "Those fanatical attacks remind me of the story of the ninety-nine Dutch cakes."

"A captain one Fourth of July was given ninety-nine Dutch cakes to divide amongst a company of one hundred men. How was he to make the division? He thought and thought, and finally a happy solution came to him.

"He shot one man."

Quick safe relief CORNS

In one minute your misery from corns is ended. That's what Dr. Scholl's Zino-pads do safely by removing the cause—pressing or rubbing of shoes. You risk no infection from a sharp cutting, no danger from "drops" (acid). Zino-pads are thin, medicated, antiseptic, protective, healing. Get a box at your druggist or shoe dealer's today—35c.

Put one on—the pain is gone

Explained Need of Dime

While standing in front of a hotel recently the writer was accosted by an old man who appeared to be about sixty years of age.

"Say, mister," he began apologetically, "can you give me a dime?" "What do you want to do with a dime?" the writer asked, seeing that the old man appeared to be in comfortable circumstances.

"The fact is," he said quite frankly, "I came downtown to go to a picture show and I find that I need ten cents more than I have with me with which to buy a ticket."—Indianapolis News.

Sure Relief BELLANS FOR INDIGESTION

It is not advisable that red raspberries be summer pinched, because it seems to encourage the growth of suckers; red varieties also send out laterals which are weak and spindling—less desirable than the single, vigorous well-matured canes.

Horticultural News

CONTROL INSECTS IN THE ORCHARDS

A drive dealing death to insects infesting South Dakota orchards is advocated by G. T. Gilbertson, assistant state entomologist at state college.

"The program of insect prevention and control in orchards is logical," he claims, "because it is aimed at the beginning phase of later outbreaks. Its cost is offset by the resultant increased yield and quality of the fruit."

Insect prevention and control may be divided into two divisions—spraying and cultural practices. The cultural practices are weed destruction, removal of crop remnants, and pruning.

Pruning should be practiced because it aids in insect control through the elimination of diseased and infested wood. Refuse, such as crop remnants and prunings, should be removed and burned, because in this material insects peculiar to the crop often feed and multiply. Weeds should be destroyed. They furnish excellent hibernating quarters for some insects, and they propagate other insects, all harmful to the orchard.

"The second division of the spring care of orchards includes spraying schedules for the spring season," Gilbertson says. "To spray at the correct times, to use the proper form and strength of spray, and to make a thorough covering of the parts sprayed, are important points to remember. Three sprays—the dormant spray, the early spring spray, and the petal fall spray—are known as the spring applications."

The dormant spray, according to Gilbertson, is a strong spray used on the trees before the buds begin to swell. The commercial lime-sulphur liquid, which must be diluted with eight to ten parts of water, is one of the best dormant sprays. It destroys scale insects, aphid eggs, etc.

This same spray, but diluted at the rate of 1½ gallons of lime-sulphur to 50 gallons of water, should be applied when the buds show pink, though before they burst. This is the early spring spray. If plant lice abound, black leaf 40—one-third of a pint to every 50 gallons of the diluted spray—may be added.

A third spray, the petal fall spray, should follow when the petals have fallen away from the blossoms—never while the trees are in full bloom. Lime-sulphur, diluted as in the early spring spray, is used. To this is added lead arsenate powder—two pounds to every 50 gallons of diluted spray.

Pinch Berry Shoots at About Eighteen Inches

The ends of young shoots of black raspberries, purple canes and blackberries should be pinched off when the shoots have reached a height of about eighteen inches. These shoots generally reach this height early in June, and this pinching process helps force out buds along the main stem, so that they will form lateral branches.

Plants pruned in this way branch near the ground and are better able to support themselves. This kind of pruning is almost always used where the grower does not have trellises. It may be necessary to go through the patch several times for the best results, as pinching should not be delayed much beyond the time when the shoots are the right height. If it is done later in the season when the shoots are longer, the growth from the lower buds will not be satisfactory. The general effect of the pinching is to keep the bushes more compact and easier to pick, to prune and to work around.

It is not advisable that red raspberries be summer pinched, because it seems to encourage the growth of suckers; red varieties also send out laterals which are weak and spindling—less desirable than the single, vigorous well-matured canes.

Curculio Causes Peach to Fall From the Tree

The early falling of peaches is very likely caused by the presence of the curculio which attacks the fruit and causes it to fall from the trees. To help prevent this insect, practice clean cultivation in the orchard and the surroundings to reduce the hiding and hibernating places. To help control them, spray with arsenate of lead, one and one-half pounds, and hydrated lime, two pounds to fifty gallons of water. Apply this spray when the shucks or calyxes are shedding from the newly-set fruit. Again, two weeks after the shucks have shed, apply self-boiled lime-sulphur and one and a half pounds arsenate of lead to fifty gallons of water.

Raspberry Growing

From a survey completed last year in southwestern Michigan, it was found that many growers are producing black raspberries at a very high cost. From cost figures collected on twenty-nine different plantations, varying from two to thirty acres in size, it was learned that one grower was producing berries as low as \$1.15 a crate, while another had a cost of \$20.72 a crate. The average was \$2.53. Forty-one per cent of the twenty-nine growers lost money.

Utilize Johnson Grass for Haying

Its Aggressive Underground Stems Make It Difficult to Eradicate.

(Prepared by the United States Department of Agriculture.)

Nearly a century ago, in 1830, to be exact, Governor Means of South Carolina introduced a grass into the United States which is native to the Mediterranean coast countries of Europe and Africa. Ten years later Col. William Johnson, the owner of a large plantation near Selma, Ala., on returning from a visit to South Carolina, brought with him some seed of the grass and sowed it on the rich bottom lands of the Alabama river. It thrived wonderfully in this new locality, and soon became widely known as Johnson grass.

Johnson grass, which has since proved to be a very great nuisance in the South, became widely established in the pastures, meadows and fields of the southern portion of the United States. Its aggressive underground stems make it difficult to eradicate when once it has gained a foothold. It is primarily a rich-land crop and is always found on the better soils. It makes indifferent growth on the hill-sides or on poor soils anywhere.

Profitable as Hay Crop.

Where it already occupies the land, Johnson grass may be profitably utilized as a hay crop, but it does not make a good permanent pasture. On the river bottoms and rich black soils where the grass thrives and is already established, it is expensive to grow cotton or other crops on account of the labor required to keep the land free of the grass. Under such conditions, says the department, it is often more profitable to devote the land to the production of Johnson hay.

With the idea in mind that it is sometimes better to make use of the grass when it is once established than to expend time and effort to eradicate it, the United States Department of Agriculture has issued Farmers' Bulletin No. 1476-F, which discusses the best method of utilizing the crop. To encourage in any way the further spread of the grass is not intended.

Probably no other grass with an inherent forage value possessed by Johnson grass has been so universally condemned largely because of its aggressiveness and the accompanying difficulty of eradication and also because it is abundant in a part of the United States where the system of farming invites defeat of effort to subdue it.

Has High Feed Value.

Stockmen in the cotton belt are practically agreed that Johnson hay has a higher feed value than timothy hay of the same grade. If a uniformly high grade of hay could be obtained, there would be very little dissatisfaction with its feeding value. Most of the complaints arise from the fact that there is so much poor hay on the markets. Better methods of curing and storing the hay would result in increased profits.

The productiveness of a Johnson-grass meadow depends primarily upon the character of the soil. On the richest and most suitable soils, however, the meadows will not maintain their original yields unless they are cultivated at intervals. They will be more productive if plowed up every third or fourth year in the fall or early spring and worked down with a spike-tooth harrow. This kind of cultivation, which would be ruinous to most grasses, merely serves to stimulate the growth of Johnson grass.

A copy of the bulletin may be obtained, as long as the supply lasts, by writing to the United States Department of Agriculture, Washington, D. C.

Control of Cutworms Is

Outlined by an Expert

The most satisfactory method for combating cutworms, according to S. Marcovitch, entomologist for the Tennessee experiment station, University of Tennessee, is by the use of poisoned bran mash. This is a mixture composed of one pound of paris green or sodium fluosilicate, twenty-five pounds of bran, one quart of blackstrap molasses and two gallons of water. Mix the poison thoroughly with the bran or middlings in a dry state. Then prepare some sweetened water by mixing one quart of molasses or two pounds of sugar with the two gallons of water. Moisten the poison bran with the sweetened water, using just enough to wet the bran without making it sloppy.

The mixture may be applied by placing it in a pail and scattering over the surface of the ground during the afternoon. The correct distribution is to have small chunks half as big as a walnut every foot or two. The cutworms are attracted to the bran and will be killed before they do much damage. Poultry should be kept out of the garden for a few days.

Undesirable Apples

Undesirable varieties of apples may be top-worked to better varieties. Growers have found that by planting Hibernal trees which are on Siberian crab stock (roots) and top-working these after three or four years to more desirable varieties they have the best possible combination for this section of the country. The crab gives vigor and hardness in the root, the Hibernal hardness and strength in the trunk and main limbs, and the third variety gives quality of fruit.

THE WORLD'S GREAT EVENTS

ALBERT PAYSON TERHUNE

(© by Dodd, Mead & Company.)

Alexander the Great

A TWENTY-TWO-YEAR-OLD boy—undersized, red-headed, sickly—set out more than 2,240 years ago with the modest intention of conquering the world. And he did it.

The boy was Alexander, king of the little northern Greek state of Macedonia. He is known as Alexander the Great.

In spite of the brave resistance at Marathon and elsewhere the barbarous world-power of Persia, after conquering practically all of Asia, had again turned its hordes against Greece, sweeping the whole luckless country and well-nigh stamping out the last smoldering sparks of civilization. This outrage Alexander determined to avenge. His father, King Philip, had made himself practical master of Greece, and Alexander himself, coming to the throne at the age of twenty, had completed that subjugation. Then he set himself to the task of crushing Persia. The plan was laughable in its audacity. Alexander's army of invasion consisted of barely 34,000 men. The Persian emperor, Darius, could put into the field millions of soldiers.

Nevertheless, with his well-drilled 34,000 Alexander crossed the Hellespont in 334 B. C. and marched boldly into Persian territory.

From the first he thrust aside the mighty but ill-organized resistance of the Persian armies and, as he advanced, his name spread terror among his foes and made his progress easier. He arrived at the ancient city of Gordium. There he was shown a chariot, whose pole was fastened to its yoke by a curious and intricate knot. He was told that, according to prophecy, the man who could undo that knot should become lord of all Asia. Many had tried and failed. With one blow of his sword Alexander slashed the Gordian knot in two. The prophecy was considered fulfilled and he was hailed as the coming Asian ruler.

Meantime, Darius, with a host of 800,000 men, marched against the youthful conqueror. Alexander lured him into the narrow valley of Issus, and there, where there was no room for the huge Persian army to deploy, he fell upon and routed it.

Onward marched Alexander, conquering everywhere, seizing Syria and Egypt and pushing ahead toward the Persian capital. Darius, with another incredibly huge army, opposed him at Arbela, but the Persian host fled at Alexander's first charge. The conqueror continued on his triumphant way, capturing all Persia and pushing forward to India. After stubborn resistance from the native king, Porus, he subdued the whole land.

Persia, as in the time of Marathon, was a more or less barbarous country. Greece was still the stronghold of culture and education. Wherever Alexander's conquests went civilization and learning went also.

Alexander was for continuing his onward march after the conquest of India, but his wearied soldiers refused to go farther into the unknown. When, reluctantly, he turned back, envoys from nearly every country in the world met him, offering submission.

Now that, as master of the world, he could rest, the less worthy side of Alexander's nature cropped out. He declared that no mortal man could have achieved all that he had and that he must therefore be a god, the son of Jupiter. He went on to assert that as mankind must, after his death, worship him as a god they might as well begin at once. Callisthenes, one of his wisest counselors, opposed the plan, declaring it blasphemous. Alexander had him tortured and killed. As a lad Alexander had had three tutors. One had taught him to believe himself a deity. Another had disciplined him severely and had striven to teach him humility. The third (Aristotle) had imparted to him the love of learning. Having practiced the precepts of the second and third tutors and thereby winning the world, he now turned to the mad teachings of the first.

He declared himself a god and believed it. He tried to make his army acknowledge him as son of Jupiter. He took to drinking heavily, and in his cups would boast loudly of his own greatness. On one of these occasions he claimed credit not only for what he himself had done, but for heroic feats performed by others long before he was born. His dearest friend, Clitus, remonstrated with him for these lies, and Alexander, snatching a spear from a guard, ran him through. Sobered by his own terrible deed the unhappy monarch declared himself, with some truth, not fit to live and tried to starve himself to death.

Soon after he was found weeping violently. A courtier asked: "Why should the divine conqueror of the world shed tears?" "Because there are no more worlds to conquer!" sobbed the king.

A three-day drunken orgy at Babylon in 323 B. C. threw him into a violent fever, and after a brief illness he died. He was barely thirty-two years old and had reigned but twelve years. In that time he had conquered everything except himself. The monarch of the world was the helpless slave of his own vanity and violent passions.

He died, and the world-empire he had built up was torn to pieces among his generals. But the civilization and learning that he fostered were destined to survive through all ages.

South Africa Reports Find of Red Diamond

The rare find of a red diamond of considerable value is reported from Kimberley, South Africa. It was found on the alluvial river diggings. This species of stone is very unusual and is likely to fetch from \$120 to \$150 (\$600 to \$750) a carat.

The cutting of the stone has been placed in the hands of a London firm, and although the accomplishment of this has proved of some difficulty the result will be that a flawless stone of about six carats will be produced.

The gem, at first glance, might be taken by the uninitiated to be a ruby of gigantic proportions, as it is an entirely red stone, without a blemish of any kind. Closer inspection, however, reveals that it possesses all the requisite properties of the true diamond, the grain being absolutely similar.

Good Use for Old Cars

Junked motor cars are being put to a new use at Pierre, S. D., that of helping to control the Missouri river. The Big Muddy has a habit of tearing away large parts of South Dakota farm land abutting the stream, during the spring rises, and carrying them downstream, sometimes in twenty-acre chunks. The piling of logs, brush and debris along the bank has not availed to stop the river's depredation, but it has been discovered that the frames of junked cars, piled one upon another wherever the water is cutting away the bank, settle so firmly and are so resistant to the channel stream that they stop the destruction. Several scores of abandoned automobiles are serving more effectively than expensive piling.

Record Check Preserved

The largest check ever written, the \$146,000,000 draft issued by Dillon, Read & Co. for the Dodge Bros. business, is now included in a valuable collection of "money" owned by Farran Zerbe, which recently was on display at the Chase National bank in New York. Mr. Zerbe began collecting money he could not spend when he was ten years old, and today what started as a hobby has developed into a successful business.

Vermont's Cows Best

Taking the country as a whole, every person has a one-fourth interest in a cow, says the Golden Age. But in Vermont, where the most attention is paid to cattle breeding, there are more cows than there are humans, and additionally the cattle average to be worth 50 per cent more apiece than they are elsewhere.

Watch White Grubs

When you are turning over the soil in your garden you may turn up white grubs, says Nature Magazine. Put a spade full of dirt, some potato parings and the grubs in a screen-covered pail and see what happens. Here is something that will interest you.

Cuticura Comforts Baby's Skin

When red, rough and itching, by hot baths of Cuticura Soap and touches of Cuticura Ointment. Also make use now and then of that exquisitely scented dusting powder, Cuticura Talcum, one of the indispensable Cuticura Toilet Trio.—Advertisement.

No man can get a blessing and keep it all to himself without having it like stagnant water in his soul.

Air conditions for radio are best in February, the next best months being March, January and November.

Your shoes feel easy if you use ALLEN'S FOOT-EASE

Stops the pain of Corns and Bunions and you can walk all day in ease and comfort. Nothing gives such relief to hot, tired, aching, inflamed or swollen feet, blisters or callosities. A little ALLEN'S FOOT-EASE sprinkled in each shoe in the morning will make you forget about tight shoes. It takes the friction from the shoe. Always use it for Dancing and to Break in New Shoes. For Free sample and a Foot-Ease Walking Doll, address ALLEN'S FOOT-EASE, Le Roy, N. Y.

W. N. U., CHICAGO, NO. 28-1926.

Grandpa Roach's Story

END the roach nuisance now. Flit will do it. Flit spray destroys roaches, bed bugs and ants. It searches out the cracks and crevices where they hide and breed, and destroys insects and their eggs.

Kills All Household Insects

Flit spray also clears your home in a few minutes of disease-bearing flies and mosquitoes. It is clean, safe and easy to use. Spray Flit on your garments. Flit kills moths and their larvae which eat holes. Extensive tests showed that Flit spray did not stain the most delicate fabrics.

Flit is the result of exhaustive research by expert entomologists and chemists. It is harmless to mankind. Flit has replaced the old methods because it kills all the insects—and does it quickly.

Get a Flit can and sprayer today. For sale everywhere.

Let these modern cooking appliances
save you the bother and discomfort
of preparing meals in an overheated
kitchen.

With them you can cook in cool com-
fort right at the table, on the porch,
or anywhere there is an electric out-
let. They not only make cooking eas-
ier, but allow more hours of leisure.

Remember that under the new low
rates for general lighting service,
effective May 1, 1926—the cost of
operating these cooking appliances is
greatly reduced.

The Shavings Go Down Your Neck

In the electrical business the experience of many a disappointed buyer has proved that it doesn't pay to shave an electrical estimate to the bare bone. In the discomfort of a job that falls short of requirement, you're pretty apt to "get it in the neck."

When you want lights in your home or store, or motors in your shop, call in the contractor whose reputation is not based on under-bidding, but on quality of work and quality of materials.

Palos Park Stages Grand 4th of July Celebration

The township of Palos celebrated on Monday, the sesquicentennial of the signing of the Declaration of Independence, the program lasting all day, beginning with a parade in the morning and ending with fire works at nightfall.

The parade was headed by Mr. Leonard Teason on Motorcycle, followed by the "Spirit of '76", the fifer being Mr. Ralph Dye, the drummer, Mr. Otto Schmidt, and the boy drummer, Duncan Christie, who is a direct descendant of Roger Sherman, one of the committee of five who drew up the Declaration of Independence. John Quick followed the group of three with the American flag.

Next came a beautiful automobile float with the standing figures of Liberty and Justice: represented by Mrs. Geo. Ward and Mrs. S. Y. Patterson. The float was furnished and driven by Mr. Chan Foster. Mrs. Ward is a descendant of John Hart, a member of the delegation from the colony of New Jersey, who signed the Declaration.

World War Veterans preceded the car in which Mrs. S. Cassell, a Gold Star Mother rode.

Then came our Boy Scouts; our school children dressed in white, and headed by little Virginia Flood as Columbia and Bobby Mahaffay carrying the flag and under the direction of Miss McLaughry and Miss McMahan; then a large group of our Palos women, dressed in white with red, white and blue sashes and plumed, red, white and blue hats.

Our County and Village Officials brought up the rear of the procession.

Assembling in the grove east of the Club House, the audience looked out over a lovely green meadow to the tree clad ridges in the distance. In the immediate foreground was the flag pole, with the float of Justice and Liberty just behind it and the flag raiser, Mr. L. B. Decker and the World's War Veterans directly in front. To the left flank were the boy scouts and half of the group of Women, on the other side, the school children and the rest of the women's group.

The flag was raised to the bugle call, played by Rev. P. D. Forry. Allegiance to the Flag was then given by the Boy Scouts, followed by the school children. The Women's group then recited the Preamble to the Constitution in unison, following this with the singing of "The Stars and Stripes Forever."

The ten piece orchestra, under the direction of Mr. Dye, accompanied the singing and furnished exquisite music at intervals during the entire day.

Mr. Walter Pyre, read the Declaration of Independence in such a vivid manner, that the audience could again feel the injustices imposed upon the colonies by the British Crown, and could again understand and sympathize with the colonists in their rebellion and formation of a Republic with the hope of Liberty and Justice for all.

Mr. Donald Richberg gave the oration of the day on the subject of "What Price Liberty". The audience was stirred and impressed by his address and so poignant were his statements to those of us living in 1926, that we will publish a brief of them in the next issue of the News-Bulletin.

The afternoon was devoted to games and races, the married woman's race, children's races, and fat man's race, under the direction of Frank Mahaffay. A drill and display on parallel bars by a gymnastic organization, was a marvel in precision and dexterity to the rest of us. Some of our boy scouts also gave a drill. The last sporting event was a baseball game between the professional and business men of Palos, the former being headed by Dr. Porter, and the latter captained by Mr. Schweizer. At the end of the five inning game the score stood three to one in favor of the professionals. Mr. Flynn pitched for the Business men and Mr. Traub for the Professionals. Dancing in the Club House wound up the afternoon.

In the evening the skyrockets and bombs shot up above an intervening cloud of mist to burst into full glory in the clear sky above. Unfortunately this mist, so lovely a setting for the higher pieces, completely obscured the view of the lower set pieces and the final piece, the American Flag was invisible.

The whole community wishes to thank Mrs. Schweizer, who was the organizer and chairman of the day's program, and who has given without stint of her time and energy during the past weeks to make the day one which we will long remember.

They also wish to thank those patriotic members of the community who made the celebration possible by subscribing the five hundred dollars needed for the expenses of music, advertising and fireworks.

The Village Park, east of the Club House had been put into beautiful condition by the Ground's committee under the direction of Mr. Alfred Pashley. Mr. Pashley, acting president of the Palos Improvement, was one of the enthusiastic workers to whom the success of the day is due.

Mr. Thomas Quin was Master of Ceremonies.

Mr. Ezra McLaughry deserves a hearty vote of thanks from all attending the outdoor exercises, for spraying the grounds with an anti-septic which drove the mosquitoes out of the shrubs and grass in clouds, and made the shady amphitheater very comfortable for the audience. Mr. McLaughry was also marshal of the day and an active member of the finance committee.

Mr. Ballard Dunne, the first Mayor of Palos Park, and at present a resident of Omaha, was here with us for the celebration and introduced our present Mayor, Mr. Edward Tourtelot, who in turn introduced Mr. Richberg.

Mrs. Otto Schmidt was in charge of the decorating of the grounds and Club House.

Mr. Stanley Dupont served on the general committee and with Mr. Bernard and other members of the Athletic Club, ran a refreshment stand.

Mrs. Hugh Quick proved an efficient chairman of the Music committee.

Mr. Arthur Heun was secretary of the General Committee and was in charge of the fireworks.

Miss Vera Lund is spending her vacation inn Cheyenne, Wyoming.

The Indiana Dunes are harboring Mrs. Marie Brenner and family this week.

A group of young people surprised Franklin Hyink on his birthday, June 26th.

Mr. Schofield Sr., Mr. R. Schofield and Raymond are keeping bachelor house in their log cabin in Northern Wisconsin.

The Palos Woman's Club was entertained by Mrs. Fred Dunlap at its last meeting. Mr. Edward Cowan our Rural Mail Carrier, gave us a most interesting and instructive insight into the workings of the United States Post Office Department.

"A DOG!"

Synopsis.—Part wolf, part dog—when two months old Baree has his first meeting with an enemy, Papayuchisew (young owl). Fighting hard, the antagonists are suddenly plunged into a swollen creek. Badly buffeted, and half drowned, Baree is finally flung on the bank, but the water has destroyed his sense of direction and he is lost, lonely and hungry. For many days his life is one of fear and distress. He meets various creatures of the wild and goes through a thunderstorm. He is learning more and more. He strays into the trapping grounds of Pierrot and Nepeese.

Chapter II—Continued

"Something is killing off the young beavers," he explained to Nepeese, speaking to her in French. "It is a lynx or a wolf. Tomorrow—" He shrugged his thin shoulders, and smiled at her.

"We will go on the hunt," laughed Nepeese happily, in her soft Cree.

When Pierrot smiled at her like that, and began with "tomorrow," it always meant that she might go with him on the adventure he was contemplating.

Still another day later, at the end of the afternoon, Baree crossed the Gray Loon on a bridge of driftwood that had wedged between two trees. Just beyond the driftwood bridge there was a small open, and on the edge of this Baree paused to enjoy the last of the setting sun. As he stood motionless and listening, his tall drooping low, his ears alert, his sharp-pointed nose sniffing the new country to the north, there was not a pair of eyes in the forest that would not have taken him for a young wolf.

From behind a clump of young balsams, a hundred yards away, Pierrot and Nepeese had watched him come over the driftwood bridge. Now was the time, and Pierrot leveled his rifle. It was not until then that Nepeese touched his arm softly. Her breath came a little excitedly as she whispered:

"Nootawe, let me shoot. I can kill him!"

With a low chuckle Pierrot gave the gun to her. He counted the whelp as already dead. For Nepeese, at that distance, could send a bullet into an inch square nine times out of ten. And Nepeese, aiming carefully at Baree, pressed steadily with her brown forefinger upon the trigger.

As the Willow pulled the trigger of her rifle, Baree sprang into the air. He felt the force of the bullet before he heard the report of the gun. It lifted him off his feet, and then sent him rolling over and over as if he had been struck a hideous blow with a club. For a flash he did not feel pain. Then it ran through him like a knife of fire, and with that pain the dog in him rose above the wolf, and he let out a wild outcry of puppyish yapping as he rolled and twisted on the ground.

Pierrot and Nepeese had stepped from behind the balsams, the Willow's beautiful eyes shining with pride at the accuracy of her shot. Instantly she caught her breath. Her brown fingers clutched at the barrel of her rifle. The chuckle of satisfaction died on Pierrot's lips as Baree's cries of pain filled the forest.

"Uchi Moosis!" gasped Nepeese, in her Cree.

Pierrot caught the rifle from her. "Diab! A dog—a puppy?" he cried.

He started on a run for Baree. But in their amazement they had lost a few seconds and Baree's dazed senses were returning. He saw them clearly as they came across the open—a new kind of monster of the forests! With a final wall he darted back into the deep shadows of the trees. He had shivered at sight of the bear and the moose, but for the first time he now sensed the real meaning of danger. And it was close after him. He could hear the crashing of the two-legged beasts in pursuit; strange cries were almost at his heels—and then suddenly he plunged without warning into a hole.

It was a shock to have the earth go out from under his feet like that, but Baree did not yelp. The wolf was dominant in him again. It urged him to remain where he was, making no move, no sound—scarcely breathing. The voices were over him; the strange feet almost stumbled in the hole where he lay. Looking out of his dark hiding place, he could see one of his enemies. It was Nepeese, the Willow. She was standing so that a last glow of the day fell upon her face. Baree did not take his eyes from her. Above his pain there rose in him a strange and thrilling fascination. The girl put her two hands to her mouth, and

in a voice that was soft and plaintive and amazingly comforting to his terrified little heart, cried:

"Uchimoo—Uchimoo—Uchimoo!"

And then he heard another voice; and this voice, too, was far less terrible than many sounds he had listened to in the forests.

"We cannot find him, Nepeese," the voice was saying. "He has crawled off to die. It is too bad. Come."

Where Baree had stood in the edge of the open Pierrot paused and pointed to a birch sapling that had been cut clean off by the Willow's bullet. Nepeese understood. The sapling, no larger than her thumb, had turned her shot a trifle and had saved Baree from instant death.

She turned again, and called:

"Uchimoo—Uchimoo—Uchimoo!"

Her eyes were no longer filled with the thrill of slaughter.

"He will die—"

"Ayetun—yes, he will die."

But Baree had no idea of dying. He was too tough a youngster to be shocked to death by a bullet passing through the soft flesh of his fore leg. That was what had happened. His

He Was Gritting His Bill in His Bad Temper When He Heard Baree Approaching.

leg was torn to the bone, but the bone itself was untouched. He waited until the moon had risen before he crawled out of his hole.

His leg had grown stiff then; it had stopped bleeding, but his whole body was racked by a terrible pain. Instinctively he felt that by traveling away from the hole he would get away from danger. This was the best thing that could have happened to him, for a little later a porcupine came wandering along, chattering to itself in its foolish, good-humored way, and fell with a fat thud into the hole. Had Baree remained, he would have been so full of quills that he must surely have died.

The exercise of travel was good for Baree. It gave his wound no opportunity to "set," as Pierrot would have said, for in reality his hurt was more painful than serious. For the first hundred yards he hobbled along on three legs, and after that he found that he could use his fourth by humoring it a great deal. He followed the creek for a half mile. Whenever a bit of brush touched his wound, he would snap at it viciously, and instead of whimpering when he felt one of the sharp twinges shooting through him, an angry little growl gathered in his throat, and his teeth clicked. Now that he was out of the hole, the effect of the Willow's shot was stirring every drop of wolf-blood in his body. In him there was a growing animosity—a feeling of rage not against any one thing in particular, but against all things. It was not the feeling with which he had fought Papayuchisew, the young owl. On this night the dog in him had disappeared. An accumulation of misfortunes had descended upon him, and out of these misfortunes—and his present hurt—the wolf had risen savage and vengeful.

This was the first night Baree had traveled. He was, for the time, unafraid of anything that might creep up on him out of the darkness. The blackest shadows had lost their thrill. It was the first big fight between the two natures that were born in him—the wolf and the dog—and the dog was vanquished. Now and then he stopped to lick his wound, and as he licked it he growled, as though for the hurt itself he held a personal antagonism. If Pierrot could have seen and heard, he would have understood very quickly, and he would have said: "Let him die. The club will never take that devil out of him."

In this humor Baree came, an hour later, out of the heavy timber of the creek bottom into the more open spaces of a small plain that ran along the foot of a ridge. It was in this plain that Oohoomisew hunted. Oohoomisew was a huge snow-owl. He was the patriarch among all the owls of Pierrot's trapping domain. He was so old that he was almost blind, and therefore he never hunted as other owls hunted. He did not hide himself in the black cover of spruce and balsam tops, or float softly through the night, ready in an instant to swoop down upon his prey. His eyesight was so poor that from a spruce top he could not have seen a rabbit at all, and he might have mistaken a fox for a mouse.

So old Oohoomisew, learning wisdom from experience, hunted from ambush. He would squat on the ground, and for hours at a time he would remain there without making a sound and scarcely moving a feather, waiting with the patience of Job for something to eat to come his way. Now and then he had made mistakes. Twice he had mistaken a lynx for a rabbit, and in the second attack he had lost a foot, so that when he slumbered aloft during the day he hung to his perch with one claw. Crippled, nearly blind, and so old that he had long ago lost the tufts of feathers over his ears, he was still a giant in strength, and when he was angry one could hear the snap of his beak twenty yards away.

For three nights he had been unlucky, and tonight he had been particularly unfortunate. Two rabbits had come his way, and he had lunged at each of them from his cover. The first he had missed entirely; the second he had left with him a mouthful of fur—and that was all. He was ravenously hungry, and he was gritting his bill in his bad temper when he heard Baree approaching.

Even if Baree could have seen under the dark bush ahead, and had discovered Oohoomisew ready to dart from his ambush, it is not likely that he would have gone very far aside. His own fighting blood was up. He, too, was ready for war.

Very indistinctly Oohoomisew saw him at last, coming across the little open which he was watching. He squatted down. His feathers ruffled up until he was like a ball of fire. Ten feet away, Baree stopped for a moment and licked his wound. Oohoomisew waited cautiously. Again Baree advanced, passing within six feet of the bush. With a swift hop and a sudden thunder of his powerful wings the great owl was upon him.

This time Baree let out no cry of pain or of fright. The wolf is kiplch-mao, as the Indians say. No hunter ever heard a trapped wolf whine for mercy at the sting of a bullet or the beat of a club. He dies with his fangs bared. Tonight it was a wolf-whelp that Oohoomisew was attacking, and not a dog-pup. The owl's first rush keeled Baree over, and for a moment he was smothered under the huge, outspread wings, while Oohoomisew—pinning him down—hopped for a claw hold with his one good foot, and struck fiercely with his beak.

One blow of that beak anywhere about the head would have settled for a rabbit, but at the first thrust Oohoomisew discovered that it was not a rabbit he was holding under his wings. A blood-curdling snarl answered the blow, and Oohoomisew remembered the lynx, his lost foot, and his narrow escape with his life. The old pirate might have beaten a retreat, but Baree was no longer the puppyish Baree of that hour in which he had fought young Papayuchisew. Experience and hardship had aged and strengthened him; his jaws had passed quickly from the bone-licking to the bone-cracking age—and before Oohoomisew could get away, if he was thinking of flight at all, Baree's fangs closed with a vicious snap on his one good leg.

In the stillness of night there rose a still greater thunder of wings, and for a few moments Baree closed his eyes to keep from being blinded by Oohoomisew's furious blows. But he hung on grimly, and as his teeth met through the flesh of the old night pirate's leg, his angry snarl carried defiance to Oohoomisew's ears. Baree's good fortune had given him that grip on the leg, and Baree knew that triumph or defeat depended on his ability to hold it. The owl had no other claw to sink into him, and it was impossible—caught as he was—for him to tear at Baree with his beak. So he continued to beat that thunder of blows with his four-foot wings.

Baree's acquaintance with man begins unfortunately. What next?

(TO BE CONTINUED.)

Great English Sailor

Sir Francis Drake, famous navigator of the time of Queen Elizabeth, sailed from Falmouth December 13, 1577, sailed around the globe and returned to England after suffering many hardships, on November 3, 1580. The queen visited Drake on his ship at Deptford April 4, 1581, and conferred upon him the honor of knighthood. He died at Panama January 28, 1596, while engaged in an expedition against the Spaniards, and was buried at sea.

That Did It

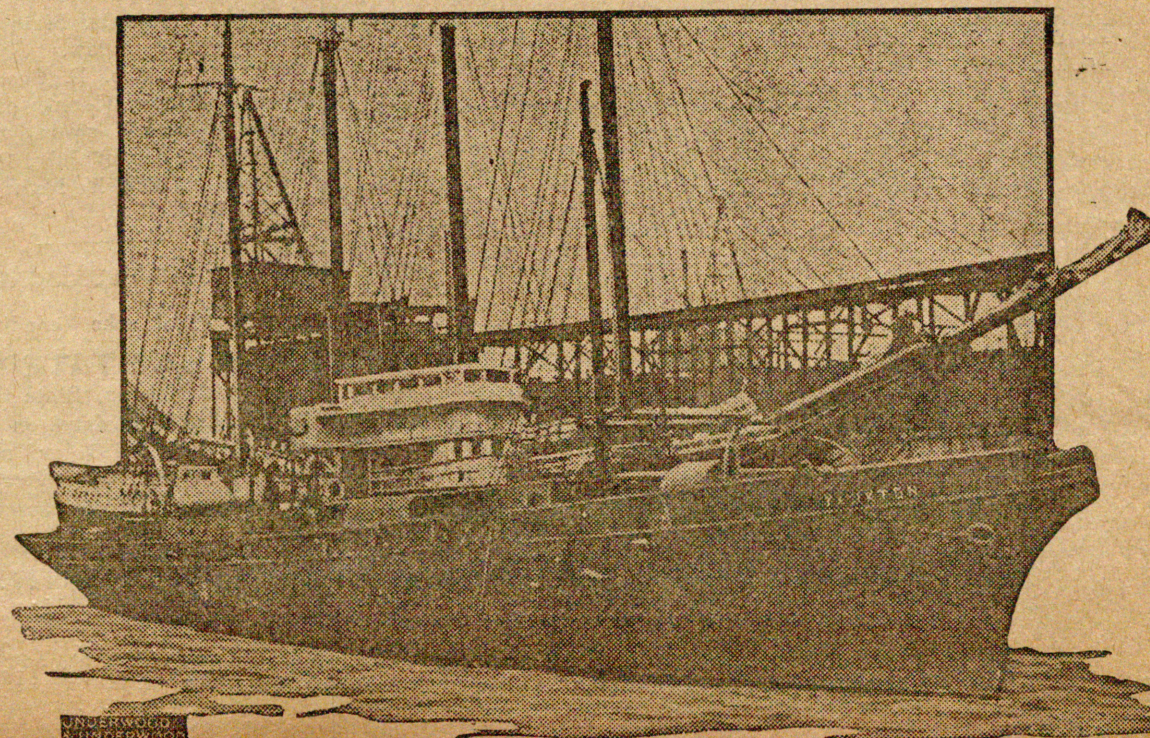

Outside the storm raged. The thunder was deafening, the lightning flashed almost continuously. Presently a bolt struck some part of the house and knocked the owner completely out of bed. He rose, rubbed his eyes, yawned, and said, "All right, dear, I'll get up."

School That Is Made Up of Many Nationalities

That the Quinn public school of Bethlehem, Pa., is virtually a melting pot is evident by this group of twenty nationalities, representative of the student body of the school, of which John J. McNamara, above, in center, is principal. Misses Irma Zimmerman and Elizabeth Randall, left background, are instructors. The student body is composed of 98 per cent foreign born or of foreign parentage.

Yacht Yankton Has Had Diversified Career

The yacht Yankton, pictured above, now owned by Chester Gray of Boston, has had a strange career. Many years ago it was the private yacht of King Edward of England. Later it fell into the possession of Sarah Bernhardt; and during the Spanish-American war it was for a time the flagship of Admiral Dewey. Since the Eighteenth amendment went into effect it has been captured twice as a rum runner.

Floral Parade of Coast Children

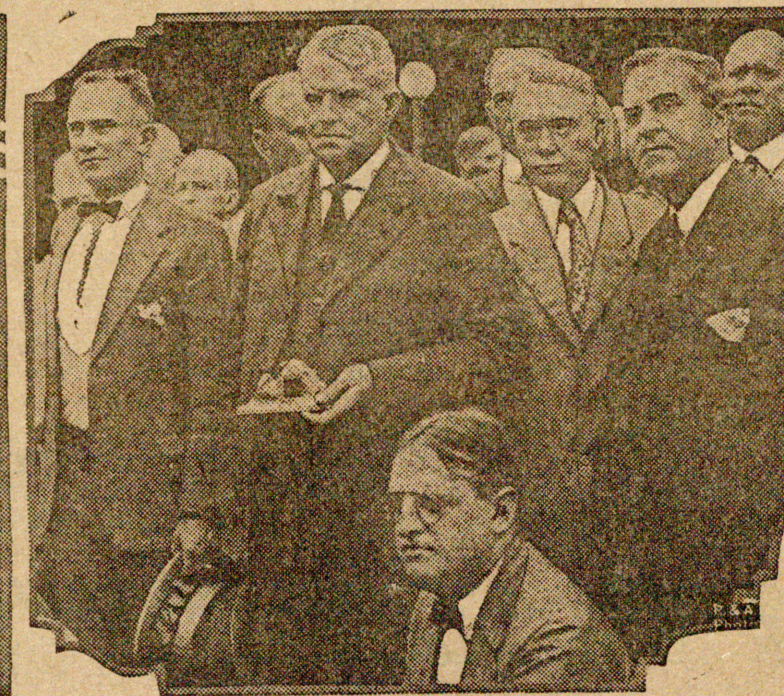

Children and flowers again proved their supremacy as southern California's chief attractions when a throng swarmed to Ocean Park to witness the seventh annual children's floral parade, and the artistic floats they had decorated with their own hands. More than 1,000 children participated in the event.

COOKS SNAKE FOODS

The new Kimura restaurant in the heart of Tokyo, Japan, specializes in snake foods, such as, for instance, juicy fried snakes. The proprietor, a well known Japanese chef, is shown in this photograph, with the base for one of his famous dishes.

Mountain Air Given President

Members of the Good Will association of the southwestern part of Virginia who presented to President Coolidge a paperweight made of copper from Carroll and Grayson counties. The weight had in it a tube containing "A Breath of Fresh Mountain Air From Virginia."

HER STORY BEST

Miss Ardis Wilden, El Paso, Texas, high school girl, is the winner of a university scholarship and \$150 in cash, as the result of being chosen national champion in the third national meat story contest which was conducted in high schools of the United States by the National Live Stock and Meat board. There were more than 10,000 competitors.

THE KITCHEN CABINET

(C. 1926, Western Newspaper Union.)

Wall not for precious chances passed away;
Weep not for golden ages on the wane;
Each night I burn the records of the day;
At sunrise every soul is born again.

SEASONABLE GOOD THINGS

The busy housewife with one pair of hands at command to do the daily tasks, must do without many frills in cookery, no matter how much she may enjoy them. However a few minutes spent in simple garnishing is well spent time.

Carrot Pudding.—Take one cupful of grated carrot, one cupful of grated potato, one egg, one-half cupful of sugar, one-half cupful of shortening, one-half cupful of raisins, one teaspoonful of soda and one cupful of flour. Steam one hour.

Sour Meat.—Take a nice piece of round steak, lay it in vinegar with one onion, a teaspoonful of whole allspice, salt and pepper mixed, one bayleaf, allow it to stand for three days. Brown the meat in a hot frying pan, pour over the vinegar and sufficient water in equal parts to cover the meat and simmer until tender. Strain the gravy, then thicken it and pour around the meat when serving.

Chocolate Cookies.—Cream one-half cupful of shortening with one cupful of sugar, add one beaten egg. Add one-half cupful of sour milk with one-half teaspoonful of soda, two squares of chocolate melted over hot water and one and one-half cupfuls of flour. Drop by spoonfuls on baking sheets and bake in a moderate oven. Top with icing prepared from powdered sugar, butter and a little vanilla and cream.

Drop Doughnuts.—Take one-half cupful of sugar, one-half cupful of milk, one and one-half cupfuls of flour with one teaspoonful of baking powder, a pinch of salt and ginger, a grating of lemon rind. Beat the egg white, add sugar gradually, then the beaten yolk, flavoring, salt, milk and flour. Drop by spoonfuls into hot fat and cook until brown. Roll in powdered sugar, then cool.

Unusual Sponge Cake.—Separate the whites and yolks of four eggs and beat the whites very stiff. Add one cupful of sugar a little at a time, then add the yolks, one at a time, cutting and folding them in, not to mix, but leave the white streaked with yellow. Fold in one cupful of flour sifted with one-quarter of a teaspoonful of cream of tartar and bake in a greased pan in a slow oven.

Stewed Lettuce.—Cook lettuce as greens in very little moisture, serve with melted butter, a dash of vinegar, pepper and salt. Onion juice may be added for seasoning if liked.

Pertinent Hints.

As seasoning is one of the fine arts and marks the ability of a cook, it is wise to study the various combinations of seasoning. The French cook has the seasoning sense developed to a high degree. Her foods are often of the most common and plainest kind, but the mixture of seasoning puts the dishes out of the ordinary class.

A package of bay leaves will last two or three generations, as this is a seasoning like garlic which should be used in very small quantities. The little bit, however, is needed to add that alluring flavor.

A bottle of mushroom sauce, kitchen bouquet, Worcestershire and tabasco sauce, pepper sauce, curry, chili powder, celery salt, paprika, soy sauces of various kinds with the commoner seasonings and a dozen of the savory herbs should all be part of the well-equipped kitchen.

Scald a dish in which fish has been cooked with vinegar in the water, then wash with soda in the water.

Old rubbers will be shined up by rubbing them with ammonia.

A roomy market basket well padded makes a fine bed for a small baby when traveling. It is easy to carry and will also hold the baby's belongings. Being able to carry the baby without disturbing him or exposing him to the weather is a great advantage.

Grease the cork of the bottle of glue and it will be easy to remove when needed.

Between the rows of the vegetables which will soon be pulled like onions, radishes and such vegetables, sow flower seed which will delight you after the vegetables are gone.

A good way to clean gloves is to moisten flour and wash them on the hands, by rubbing and cleaning off the dark spots. Renew the flour and clean again.

Kitchen aprons of unbleached cotton are much more desirable, as they may be boiled and kept white.

A piece of ice held in the mouth for a minute before bad-tasting medicine is given will dull the sense of taste.

A little sand in a top-heavy vase will add greatly to the comfort of using it.

A fresh blood stain will be completely removed if covered at once with powdered starch.

When setting dishes on ice use a can rubber under them; this will keep them from slipping.

Whenever the creator of new styles is dealing with gorgeous fab-

DAY FROCKS FOR MIDSUMMER; SUPERB EVENING COSTUMES

WHEN summer comes and there is so much to enjoy—if one is cool enough—the up-to-date woman insists on being comfortable. The shops are full of pretty clothes for hot weather made of the lightest of practical fabrics and there are ways and means for providing a little extra warmth when it is needed. Even house dresses are gay and airy—the

rics, his ability is put to the test. He must confine himself to simple designs or to ingenious ones that seem simple; for no one knows better than he that to adorn the lily and to paint the rose is fatal to good style. At the same time he must make his creations interesting—his simplicity must be original and there is where the test comes in. Velvet has made its

Two of the Popular Styles.

chambrays and ginghams combined with organdie and woven in lovely colors. These are usually one-piece affairs designed for easy tubbing.

Day dresses are shown in one and in two-piece modes and in many different kinds of material. White crepe de chine or radium silk frocks, similar to those pictured here, are as practical as cotton and even cooler. Nothing launders better. Polka-dotted silks in white with dots in red, blue, green or yellow, are combined with plain white silks in one-piece frocks and in delightful jumper dresses. Other printed silks are used with plain silks, as in a jumper dress with plain white skirt having godets of striped silk

stately entry in the modes and the eyes of great designers are fixed upon it.

Here is an evening costume in which a spangled gown of georgette is enveloped by a cape made of chiffon velvet in two colors. The gown seems to be as simple as possible, yet it is adroitly flared in the skirt, which ripples about the figure. The spangled floral pattern that makes it brilliant, extends upward on the right side from the skirt to the shoulder. A huge velvet flower is posed below the waistline and completes a perfect piece of work.

This sparkling dress disclosed by the open cape is all that it should be,

Gown of Georgette With Cape of Chiffon Velvet.

and jumper of striped silk finished with collar, cuffs or other touches in the white silk.

Next after these cool light silk fabrics come the new and pretty cotton and rayon mixtures in attractive cross-bar and striped patterns and in mixtures of a color and white woven together. A degree heavier are the lightweight mixtures of wool and rayon in plain patterns in which the colors have a silvery sheen or in fancy weaves showing two colors. These materials are very soft and are un-missable. They are shown in entire jumper dresses or in jumpers with silk skirts to match in color and in one-piece frocks. They are in the class of sports dresses but are worn everywhere.

Whenever the creator of new styles is dealing with gorgeous fab-

but the cape compels attention for its originality. A circular piece of chiffon velvet is bordered by a graduated flounce of the same velvet in another color—or two tones of the same color might be used. The flounce is set on with lace needlework. One can imagine this wrap in deep and rich tones of red, green or blue or in golden-brown and darker tones, making a background for the brilliant dress worn with it.

Velvet is here in dark and in light colors, in black and in neutral shades. Just what will be done with it remains to be seen when the fall modes begin to make their appearance. But the trend of fashion is toward dignified styles, which is a good omen for rich fabrics, and among these velvet stands at the head.

Sunday School Lesson

(By REV. P. B. FITZWATER, D.D., Dean of Day and Evening Schools, Moody Bible Institute of Chicago.)
(C. 1926, Western Newspaper Union.)

Lesson for July 11

THE CHILDHOOD AND EDUCATION OF MOSES

LESSON TEXT—Exodus 2:1-10; Acts 7:22.

GOLDEN TEXT—Train up a child in the way he should go and when he is old he will not depart from it.—Prov. 22:6.

PRIMARY TOPIC—The Baby Moses. JUNIOR TOPIC—A Little Girl Helps. INTERMEDIATE AND SENIOR TOPIC—Training for Life's Work. YOUNG PEOPLE AND ADULT TOPIC—The Blessing of a Religious Home.

I. Moses' Parentage (v. 1). Both father and mother were of Levitical stock. Being from the same tribe, they had a common bond of interest and sympathy. Amram had the good judgment to choose for a wife a woman who possessed sympathies and ambitions in harmony with his own.

II. Moses' Birth (v. 2). Two children were born to Amram and Jochebed before Moses—Aaron and Miriam. However, Moses was the first one that his mother was assured was to be the deliverer of the chosen people. There was something striking about this child which caused her to believe that it was sent of God. She saw that he was a "goodly child." In Stephen's speech (Acts 7:20) he asserts that the child was "exceeding fair," or fair to God. No doubt his mother believed him to be the deliverer of his people and instilled that truth in his mind from childhood. Because of this belief she had confidence that somehow God would save him from the cruel hand of the king.

III. Moses' Preservation (vv. 3-8). Though Pharaoh's edict was in force, his mother's faith was such as to cause her to ignore it and hide Moses for three months. The hiding of the child was not because of fear, but because of faith (Heb. 11:23). It was her faith which made her brave to ignore the king's edict. Though Moses' mother had faith, she did not ignore the proper use of means. Pharaoh's plan was that every male child should be destroyed, but God had planned otherwise for this child. Perhaps the story of how Noah and his family were saved in the ark suggested to his mother the expediency used, namely, the ark of bulrushes. Doubtless she was familiar with the place where Pharaoh's daughter came to bathe, and believed that somehow through her the child would be saved. She placed the ark at the particular place where it would attract attention. It is interesting to note the steps as pointed out by another, by which God's plan was carried out.

1. The mother's wit. She placed the baby at the proper place and at the opportune time. Then, too, Miriam was no doubt stationed as a watch to aid in the affair (v. 4).

2. A faithful sister (v. 7). Had Miriam not been faithful, humanly speaking, Moses' life would not have been preserved and properly nursed and educated at the proper time. This should be a worthy example for every sister, causing her to exercise watch and care over her brother.

3. A woman's curiosity (v. 5). This strange object among the flags attracted the attention of Pharaoh's daughter and she directed her maids to bring it to her.

4. A woman's compassion (v. 6). When the ark was brought and opened the baby wept. That woman has lost her feminine instinct who is unmoved with compassion at the cry of a lonely, motherless baby.

5. The baby's tears (v. 6). The tears aroused her womanly instinct, and at the suggestion of Miriam the baby's mother was hired to nurse her own child. No one can nurse a child so well as its own mother.

IV. Moses' Education (v. 9). Moses was first educated at his mother's knee.

During this time his character took form. Here his mind was filled with the Word of God and he was made acquainted with the Jewish hopes and prospects. In these early years no doubt the indomitable purpose was fixed to suffer affliction with the people of God rather than to enjoy the pleasures of sin for a season (Heb. 11:24-26). Seeing by faith the destiny of her child, Jochebed made good use of her time.

2. At the Egyptian court (v. 10).

It was here that he became acquainted with all the wisdom of the Egyptians (Acts 7:22). This was of great importance. It peculiarly qualified him to be the lawgiver and historian of his people.

Our Present Lot

Of nothing may we be more sure than this: If we cannot sanctify our present lot, we could sanctify no other. Our heaven and our Almighty Father are there or nowhere.—D. Martineau.

Purity

If a man is so pure-minded that he will not have anything to do with people who are not pure-minded his purity takes him out of the category of humanity.—Henry Ward Beecher.

Hard Luck

"What are you crying for, my lad?"
"Cause father's invented a new soap substitute an' every time a customer comes in I get washed as an advertisement.—Dry Goods Economist.

None are so deaf as those that will not hear.—Henry.

Stretching It

Dick—But why are you going to that poky old place for your vacation?
Jack—Well, I have only a week, and I want it to seem like a month.

Temptation never fails to come to those who wait.

Children Cry for

Fletcher's CASTORIA

MOTHER:—Fletcher's Castoria is a pleasant, harmless Substitute for Castor Oil, Paregoric, Teething Drops and Soothing Syrups, especially prepared for Infants in arms and Children all ages.

To avoid imitations, always look for the signature of *Charles H. Fletcher*. Proven directions on each package. Physicians everywhere recommend it.

Nellie Maxwell

MOKENA

Mr. and Mrs. Roy Krapp have been spending their vacation in Wisconsin. Last week they motored to Valpariso, Indiana to visit relatives.

Mr. and Mrs. Richard Hensel are entertaining Mr. and Mrs. Hoffman of New York.

The case of Mrs. Tom Moore who accidentally killed a child on a street in Chicago with her car, came up for a hearing Thursday. The jury exonerated Mrs. Moore from all blame.

Roy Krapp has sold his share in the Mokena Hardware Store to his brother Milton.

Mr. and Mrs. W. E. Houchin and Miss L. A. Justus of Chicago, visited over Sunday and Monday with Mrs. John Semmler.

Mrs. Albert Hodell has returned from Chicago Heights where she visited with her daughter Mrs. W. Hartwig.

The Men's Club picnic held last Saturday night was well attended over 200 tickets being sold. The next dance is Saturday night of this week.

Mrs. J. W. Jackson attended the funeral of a cousin at Morgan Park last week.

Mr. and Mrs. Joe Lawrence and family who have been residing in Chicago with Mrs. Rose Kluth, mother of Mrs. Lawrence, have rented the August Hauck place and moved in Monday.

Mr. and Mrs. Joe Sandrock and son of Michigan, arrived here last Friday and are visiting at the John Walsh home and with the former brothers Louis and Martin.

Mr. and Mrs. A. E. Wachter entertained over 140 guests at a birthday party at the St. Mary hall Wednesday night in honor of their daughter Francis.

Mr. and Mrs. Charles Dath of Marti street motored to Fox Lake over the holidays.

Prof. A. L. Brown former pastor of the Marley church and principal of the Mokena school, moved his family to Chicago Friday. Mr. Brown is now engaged in the real estate business.

Miss Alma Dath spent Independence Day in St. Joseph, Michigan.

A large number of Mokena folks attended the circus at Joliet Mon. Miss Alma Dath returned last week Thursday from Baltimore,

Maryland where she spent her vacation. Cooper & Hostert have quite a curiosity in their garage by way of a Ford of 1906 make which they bought at Marseilles. This car is some contrast when standing along side 1926 model Fords showing the wonderful progress made in the last twenty years.

Kenneth, son of Mr. and Mrs. Ervin Warning underwent an operation for appendicitis at the Silver Cross hospital, Joliet the past week.

Bobby Beagley returned home the past week from the Silver Cross hospital where he has been for 4 weeks following an accident in which he broke his left leg when he fell off a horse.

The Ladies Aid of the M. E. church will hold an ice cream social on the lawn of Mrs. Florence Hamilton next Tuesday evening. Everyone invited.

Mrs. Elmer Cooper entertained the M. E. Ladies Aid at her home Thursday afternoon.

The quarantine on the Harvey Reab home was raised Friday.

Helen Cappel entertained the members of her school class at her home Wednesday afternoon at a picnic in the orchard. Games were played and refreshments were served and a fine time was enjoyed by all present.

Miss Olive Geuther has resigned her position at the Mokena post-office.

Mr. Geo. Cooper Sr., of St. Petersburg, Fla., is visiting in Mokena. Mrs. Cooper will come soon and they expect to spend the summer in this part of the country.

MOKENA M. E. CHURCH

Glen T. Beaty, Pastor.

During July and August Rev. Mr. Beaty will preach at Tinley Park M.E. Church every Sunday morning at 11 A.M. The pastor there, Rev. Fields, is spending his vacation in Texas and Oklahoma.

Mrs. Wm. N. Lathrop has been appointed Acting Superintendent of the Sunday school to serve during the time Rev. Beaty will be away. We especially need the help of our adult people in making our Sunday School the best possible training place for our boys and girls. Let us support Mrs. Lathrop in this work during the summer months in a most satisfying way.

Our evening services are at 7:30 P.M. Sunday. Next Sunday the pastor will preach on the topic: "Primary Teachings of Jesus". We

invite all the community to enjoy our services with us. Our summer evening services are not long, and our church is cool.

Mrs. Louise Bergman of California, Mr. and Mrs. Fred Hupp of Chicago spent Sunday with their cousin, Mrs. Emma Bechstein. Mr. Bergmann is spending the summer in Europe and Mrs. Bergman will soon return to her home in Cal.

TINLEY PARK

TINLEY PARK M.E. CHURCH
Rev. F. A. Fields, Pastor.

During July and August Rev. Fields will be on his vacation. He is spending the time in Texas and Oklahoma. During his absence Rev. Glen T. Beaty of the Mokena M. E. Church will occupy the local pulpit. He will preach every Sunday at 11 o'clock. There will be no evening services. Sunday School as usual at 10 A.M. Mrs. Wyman is Superintendent. All are invited and urged to attend these services. Rev. Beaty will preach a sermon on "The Story of Jonah" next Sunday morning.

ORLAND

Last week Mrs. Myron S. Collins wife of the former pastor of the Orland M. E. church, passed thru Chicago on her way to Seattle, Washington, where she is attending a National College Sorority Convention. Mrs. Collins went from Chicago by way of the Canadian Pacific and is stopping off at Banff and Lake Louise in Alberta, enroute to Vancouver and Seattle. She plans to visit her mother at Manhattan, Kansas on her return trip and expects to spend a day or two visiting in Orland.

ORLAND M. E. CHURCH NOTES

Sunday July 11th: Bible school at 9:30 a. m. Morning worship at 10:30. The sermon is the third in a series on "The World's Greatest Short Stories" and is entitled "An Ancient Broadcaster".

On Sunday evening the first of a series of meetings conducted by the young people will begin. There will be a special speaker and special music each Sunday evening. Every one is cordially invited.

The picnic at Agate's Grove was very well attended. A splendid chicken dinner was served. A feature of the day was the "Women's

Guild Band," which rendered several musical selections, patriotic and otherwise. The baseball game between the married and single men resulted in a victory for the single men—but the game was only 7 innings and some of the married men propose that the score would have been reversed had the game lasted as long as it should.

The Daily Vacation Bible School is progressing well under the general leadership of Miss Clara Myerick. The graduating exercises of the school will be held at the church on Sunday evening, July 18th.

FRANKFORT

The ball game between Green Garden and Frankfort July 4th at the Borman grove was won by the Frankfort team.

Mrs. Minnie Damann is ill at her home.

Mrs. Henry Hick and daughters Amelia and son of Tinley Park visited recently with Mrs. Charles

Mr. and Mrs. George Kratzenberg entertained last Sunday afternoon and evening the following guests: Mr. and Mrs. Bartle Heiser, Mrs. Tillie Bettenhausen, Ed. Foos, Mr. and Mrs. McEwann, Mr. and Mrs. George Mark and family, Mr. and Mrs. Henry Nordmeyer of Matteson, Charles, Frank, Arthur and Will Mark, Mr. and Mrs. Conrad Sangmeister. Dinner was served to 21 guests.

Herbert Nieland was taken to the Joliet sanitarium last Wednesday. He is reported to be improving and his many friends wish him a speedy recovery.

Mrs. Homer Smith and son Harold left Wednesday morning from Joliet for a visit in Cedar Rapids, Iowa. They were accompanied by Mrs. Will Jarchow and son Robert of Joliet. They will be gone ten days or two weeks.

IN MEMORIAM

Fred Hinspeter
In fond and loving memory of our dearly beloved father who departed from this life one year ago July 6, 1925.

Though you're gone, you're not forgotten,
Nor will ever be;
For as long as life and memory last,
We will ever think of thee.

Loving Wife and Children.

OAK LAWN

Mr. and Mr. Harry Phillips attended the Beebe family reunion in the Forest Preserve last Sunday. In case of a fire call the Village 8:30 A.M. to 3 P.M.

Hall, No. 9, and if no answer is received call 35, the Oak Lawn Trust and Savings bank, where the assistant Fire Chief, Irvin Behrens, is as cashier. The bank is open from

CONGREGATIONAL CHURCH
(Oak Lawn, Illinois.)

The Daily Vacation Bible School has 40 registered and is occupying the major attention of the church.

After 5 weeks of study and play the school is planning a presentation of the life of Jesus.

Last Sunday a group of the Junior girls sang the offertory during the morning worship hour. The Primary class has its interest in projects one of which is transplanting plants into pots which they themselves have painted.

Rev. Mr. E. A. Reese is continuing his sermons on the "Life of Jesus in our Day and Generation". Last Sunday being the Fourth of July, he preached on the Lordship of Jesus over our nation as well as all nations. Much of our country is not really Christian in attitude and until the Christ rules over business and politics and society, foreign students will not want our civilization, and neither are we content without an effort to establish the Supremacy of the Lordship of Jesus.

The usual monthly business session of the church was held last Wednesday evening.

The Ladies Aid held their last meeting with Mrs. Chas. Schultz.

Robert Hoerner who is known to a number of Oak Lawn folks was married to Miss Louise Wessels of Oakly, Iowa July 6th. They spent July 7 with Rev. and Mrs. Reese and a reception was held for them at the Reese home.

Want Advs

Today.

There is a thing called yesterday, but that is only the dust-bin at the door, into which we cast our refuse, our failures, our worn-out souls. There is a thing called tomorrow, bursting with far better things than those which we have discarded. But in today the whole passionate force of the universe is poured—and therefore today is marvellous.—S. P. B. Mals.

ARE YOU A CHRISTIAN?
